As a member of the Center for Science in
the Public Interest (CSPI), I urge you to
save human lives by banning the use of
medically useful antibiotics in animal feed.
Adding antibiotics to feed in order to pro-
mote growth can make bacteria resistant
to those antibiotics. And that can leave
physicians with no way to treat life-threat-
ening bacterial infections in humans. That's
why I support the petition filed by CSPI.

The contents of NAH are not intended to provide personal
medical advice, which should be obtained from a qualified
health professional.
